Healey-Driscoll Administration Awards $5M for Child Care Capital Renovations

The Children's Investment Fund and CEDAC are celebrating the Healey-Driscoll Administration's announcement yesterday of $5M in capital investments for the early education and out-of-school time sector in Massachusetts. These funds will create and improve high-quality child care centers that help kids thrive.

Six non-profit programs received EEOST "large grants" this year, ranging from $400,000 to $1,000,000:

- Attleboro Norton YMCA
- Children's Services of Roxbury
- Community Action Agency of Somerville (CAAS)
- The Community Group (Community Day Care Center of Lawrence)
- Nurtury, Inc.
- United South End Settlements

Two of these grantees, CAAS and The Community Group, are partnering with affordable housing developers on co-located child care centers.

We are grateful for the administration's commitment to this program and for our partnership with the Department of Early Education and Care.
